

Professional Development Program - Designing Holistic, Creative Curriculum

AECED Mumbai - started its Professional Development Program series and we had an overwhelming response from the participants.

We had registrations from across the country and managed to have quite a few members from the NGO sector.

AECED believes in capacity building of professionals which leads towards enhancements of skills and knowledge.

We conducted our first session on Saturday the 5th of June - on the topic of Designing holistic, creative curriculum by Ms Archana Jamdar.

She provided insights into creating curriculum frameworks, different types of curriculum, steps in planning a curriculum and child centered approach.

“the way such a vast subject was broken down and pointers were given till a day planned in school.”

“Principles of Learning & 4 Pillars of Education by UNESCO”

“THEORY TO PRACTISE ...very well covered - UNESCO DOMAINS and Activities”

“4 pillars of UNESCO was a new concept”

“The session really made us understanding the importance of understanding the learner.”

These are just a few of the many positive responses that we have received from our valued participants.

Thank you all for making this session such a huge success.
