ENVIRONMENT Settings and materials

AECED Mumbai conducted it's third session of the Professional Development Program series on Saturday the 19th of June - on the topic of The Environmental Settings And Materials In Early Childhood by Ms. Rekha Menon and Ms. Meera Mahendra.

Identifying and designing of spatial settings, materials and strategic designs in varied anf different environments were discussed at length by the facilitators.

Some positive feedback received were:

"All the topics were relevant as per the current scenario. Loved it. Thank you to much."

"A well planned session where both the speakers passionately took us through their understanding. Thank you so much for that."

"To design the spaces and make environmental changes using minimum material. Great ideas. "

"Elaborate understanding of the characteristics of space and dimensions of children's environment."

"The different innovative environments we can set up for physical as well as online classes."

Thank you to everyone who attended the program.
